Description:

Set against the stunning backdrop of San Diego Bay, the ninth annual Festival of Speed will feature 225 of the world's most unique and pedigreed machines at one of the most distinctive stages, Naval Air Station North Island, the birthplace of Naval Aviation. A spectator-friendly 1.6 mile course is constructed in a matter of days on the runways and taxiways of Naval Air Station North Island.

The vintage racecars are chosen to compete on the basis of their historical significance and certified authenticity. Some of the cars on the track are valued in the millions of dollars and, unlike most racing events, fans are invited to tour the pits and speak with the drivers of these unique machines. An enthusiastic gathering of 20,000 fans is expected to be on hand to take a step back in time to enjoy auto racing's rich history.
